Erick Damián Jiménez Murcia. Electronic Engineer – Software architect. Phone: (+57) 313-7421511.

Professional profile

Electronics engineer with knowledge in Java, Angular JS, C#, SQL, PHP, HTML, CSS, and Arduino. Additionally, I have expertise in agile methodologies such as SCRUM. Furthermore, I possess skills in using graphic design tools like Illustrator and Photoshop, allowing me to create attractive and functional interfaces. I am focused on achieving high-quality results and have a strong ability to solve problems in a creative and efficient manner. Moreover, I enjoy collaborative work and believe in the importance of effective communication and teamwork to

Work experience

Technology teacher.
Colegio Ferrini Bilingüe (Jul 2021 – Jan 2023)

I accompanied the teaching learning process in programming fundamentals, graphic design using Illustrator and Photoshop, office automation, and entrepreneurship to secondary and high school students. In that role, I achieve to transform and to update the curriculum, based on market reality, new technologies, and national educational standards.

Technology teacher.
Colegio San Ignacio (Jan 2023 – Jun 2023)

I accompanied the teaching learning process in programming fundamentals, robotics, and office automation to primary students.
